Laughing Whitefish Falls: 1.2 miles (out and back)

Subway: 2.5 miles (out and back)

North Country Trail Connector (NCT)/ River: 5.5 miles (out and back)

Difficulty:

Easy / Moderate

The walk to the falls is a casual stroll on a pleasant, wide path. You can also view the falls from the bottom of a series of steps which could add to the difficulty. The hike to the subway along the NCT connector can be a little difficult to follow if their is a lot of vegetation but it is otherwise quite flat. Continuing further to the NCT extends the mileage. If you choose to descend down to the river on the NCT there is a sharp decent.
